

Questionnaire

before Mold Quotation

CenterMold
B17, Tantou West industrial park,
Shenzhen, China
info@CenterMold.com
www.CenterMold.com

1. What is the estimated annual production quantities for this part?

2. What is the expected lifespan of the product?

3. What is the end use of the product ?

Medical
Industry
Automotive
Consumer Electronics
other

4. What plastic material will be used for this part?

5. Will this part be exposed to extreme conditions ?

6. Are there any specific cosmetic requirements for the part

- ☐ no visible defects
- ☐ high-gloss finish
- ☐ textured or matte finish
- ☐ specific color requirements

7. Are there any inserts that will be overmolded?

Yes No

8. what type of material do you prefer for cavity and core?

9. What are the surface finish requirements for the cavity?

10. Are there any specific requirements for gate type, location?

Yes No

11. Do you have a specific injection molding machine in mind?

Yes No

12. Do you have any mold-design specifications that need to be adhered to?

Yes No

13. Are any inspection or testing criteria required for the parts?

Yes No

14. How critical is the delivery date?

15. How many samples will you need initially?

Tailoring the Perfect Mold Together

We highly value your expertise and insights as we work together to design a mold that meets your specific requirements. By understanding your product's demands, material choices, and production needs, we can create a mold that balances quality, efficiency, and cost-effectiveness
